

Appl. No. 09/627,254

Amdt. dated April 22, 2004

RCE and Amendment in reply to Office Action of October 21, 2003

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

1. (Currently Amended) A radio system for sending and receiving electronic messages from a personal digital assistant through a cellular phone, the radio having a microprocessor, a display and a connector for connecting to the personal digital assistant, said system comprising:
a modem incorporated into the radio and having means for connecting to the personal digital assistant;

a communication port having access to said modem and the cellular phone, said communication port having including a controller for communicating transmission signals to ~~said the~~ radio including signals having information about the status of a communication connection between the personal digital assistant and the cellular phone through said modem; and

software for the ~~microprocessor controller~~ including both instructions for determining the status of the communication connection and instructions for displaying the status of the communication connection between the personal digital assistant and the cellular phone on the display of the radio.

2. (Original) The system as claimed in claim 1 wherein ~~said~~ modem further comprises AT commands that are decoded and acted upon by the radio.

3. (Original) The system as claimed in claim 2 wherein ~~said~~ AT commands further comprise a dial command, a hang-up command, and an extended results code command.
